## TO THE BUSINESS MEN OF RALEIGH.

---

With the publication of this volume we present our first effort to secure to Raleigh a Directory of its business and the people engaged in the same. We have spared no labor or pains to make it correct, and yet we feel sure that errors have been made. Our aim has been to record the address of every person engaged in any kind of business and those receiving wages for any kind of service. For our success in the undertaking we feel amply repaid; for the failures we ask patience, as it is our purpose to issue a Directory of Raleigh in the future as a permanent feature of our publications.

We hope to gain experience and make the book one worthy of a liberal patronage and a useful enterprise to our growing city.

EDWARDS, BROUGHTON & CO.

## THE CITY OF RALEIGH.

---

Raleigh, the capital city of the State of North Carolina, is one of the very few seats of government that were deliberately planted and grown upon virgin soil. In most States the selection of a capital is determined by the relative business or influence of existing cities; but the wise men of the Old North State chose the county that was nearest the centre of the State, and then, in the centre of this county of Wake, chose the spot nearest the centre for the location of the capitol. All around the land in gentle undulations seems like billows suddenly arrested in their merry chase of each other, each lying at the foot of its predecessor until the crest is reached, and upon this the capitol stands looking out over a gem of entrancing beauty, set in the circling hills. A poet mounted to the dome one day, and, breathing in the view, gave the city the title of the "City of Oaks." She has many graceful elms and maples, with numerous specimens of other beautiful varieties, but the oaks are her chief glory. Many of these have nodded their bows to the centuries as they past, adding rings as each year, coming out of the future, kissed them and fled into the past.

The present capitol building was erected in 1840, succeeding the original one, which was destroyed by fire in 1831.

A mansion for the Chief Executive of the State, on Burke Square, bounded by west Blount, east Person, south Jones and north Lane streets, is nearly completed, and will be a handsome and imposing edifice when completed.

The streets, starting from the capitol as the centre, are laid off at right angles with each other, and in strict loyalty to the points of the compass, running due north and south, and east and west, as follows:

### Street Directory.

The city is divided east and west by Fayetteville street, running south from the capitol, and Halifax street running north. The other streets running north and south are in the following order :

EAST SIDE.	WEST SIDE.
1st. Wilmington.	1st. Salisbury.
2d. Blount.	2d. McDowell.
3d. Person.	3d. Dawson.
4th. Bloodworth.	4th. Harrington.
5th. East.	5th. West.
6th. Swain.	6th. Saunders.

Manly street runs from the lower end of McDowell south. Haywood street is next to Swain, and runs from E. Davie to Lenoir street. Linden avenue runs north from Jones street to Oakwood avenue.

Newbern avenue and Hillsboro street separate the city from north to south, the former running east from the capitol and the latter west. The other streets running east and west are in the following order :

SOUTH SIDE.	NORTH SIDE.
1st. Morgan.	1st. Edenton.
2d. Hargett.	2d. Jones.
3d. Martin.	3d. Lane.
4th. Davie.	4th. North.
5th. Cabarrus.	5th. Johnson and Polk.
6th. Lenoir.	6th. Peace.
7th. South.	7th. Firwood Avenue.
8th. Smithf'd & Cannon	

Oakwood avenue runs from Person street east, fourth street from Newbern avenue.

The buildings are numbered on the Philadelphia plan, 100 to a block, commencing at capitol.

From whatever direction a person enters Raleigh, he passes by a seat of learning. On the west, St. Mary's School, venerable with age but vigorous with life, stands in the centre of a beautiful park. On the north Peace Institute rears its lofty pillars, and is spreading its accommodations.

On the east St. Augustine Normal School and Garfield Graded School, for the colored. On the south the Centennial Graded School, for white children, Johnson Graded School for colored children, and Shaw University, grouping its six imposing edifices. These schools are noted throughout the State and the country, drawing students from many States.

### The State House.

The State House has long been the pride of the people of North Carolina, as one of the finest State Capitols in the country. It is the most sightly structure in the city, standing on the loftiest point within its bounds, and can be seen from all directions. It is a fine specimen of pure Doric, and is in the form of a Greek cross, the fronts looking to the East and West having impressive porticos with immense pillars, and is surmounted by a dome, underneath which the rotunda rises from the centre to the top floor whence it springs by a graceful arch to the skylight, 96 feet above the pavement. In the latter, just under the dome, is the "centre-rock," standing upon which a person finds much difficulty in speaking, and cannot be heard as distinctly as when he stands upon other portions of the pavement. The passage ways are all handsomely arched in granite. The House of Representatives occupies the southern portion of the second story, and the Senate the northern portion.
